NUMBER 279.

THE NEWS.

If the news by our despatches from Mobile may be believed, the rebels in that locality are involved in a new trouble, which from this time forth will be more likely to increase than diminish, all over the Jeff. country. From present indications it will not be long before the leaders in this most accursed rebellion will be calling for the rocks and mountains to fall on them and hide them from the wrath of an incensed people.

Another rebel steamer, the *Mayflower*, has fallen into the hands of our cruisers off the Florida coast.

An expedition up the James river, by our forces, resulted in the loss of 80 men in killed, wounded and missing. The enemy lost 150 men.

The rebels are showing signs of vitality in Western Virginia, but they have made no headway against our forces as yet.

Washington dates bring little of interest.

The last foreign arrival brings news which looks to the settlement of vexed questions in the old world.

Capture of "Little Six."

Intelligence from Pembina announces the capture of the Sioux Chief Little Six. Since the death of Little Crow, he has been the ruling spirit among the hostile Indians. The capture was effected by British subjects, who drugged the savage and gave him chloroform, and then brought him into the camp of our forces under command of Major Hatch.

STATE NEWS.

The Sabbath School at Menasha, with an average attendance of 76 members has furnished nineteen young men for the war. The Saw Mill and Spoke and Hub Factory of Charles Mathieu in Menasha, caught fire on Saturday night, the 30th ult., and burned to the ground. The fire consumed a large quantity of material and stock, much of which was in an advanced state of manufacture. Loss about \$3000 upon which there was no insurance.

The Madison Patriot devotes the whole inside of its daily issue to the advertising of a work it facetiously calls the "Logic of History," the said history being made up of scraps of official letters and reports and heavily interlarded with extracts from the more bitter of copperhead journals of the day; the whole illustrated, annotated, improved and embellished by the frequent remarks of the Editor. It is a delightful melody and doubtless will astonish the world when it appears in a full and ponderous volume, bound in "calf," or "sheep."

DESERTERS STILL COMING IN.—A Virginian just from Berkeley County, Va., states that Rebel deserters are coming in in large numbers, all expressing themselves as tired of serving in the Rebel ranks, and all anxious to take the oath under the Amnesty Proclamation. A large number have already done so, and one company of redeemed rebels have been sent to the field in our service, and another is soon to follow.

DEAF AND DUMB INSTITUTE.—The Governor has appointed A. H. Barnes, of Delavan, C. D. Long and Hollis Latham, of Elkhorn, members of the Board of Trustees of the Institute for the Education of the Deaf and Dumb, for the term of three years commencing on July 1st, 1864.

GEN. MEADE has been quite ill for a number of days at his home in Philadelphia. Although much better, he is not likely to be able to resume duty in a number of days.

The depot of the Camden and Ambury Railroad Company, in Camden, was entirely destroyed by fire at 6 o'clock on Friday morning last. Nine freight cars, five cars loaded with Government hay, three emigrant cars, one hospital car, two cars filled with hogs and sheep, and a horse and mule, together with a steam fire engine, waiting transportation to New York for repairs, were destroyed.

FROM THE 13th REGIMENT.—A correspondent from the 13th regiment, writing from Nashville under date of Jan. 28th, says the regiment has re-enlisted and will soon be home on a furlough.

A TOUCHING INCIDENT.—The following incident, which occurred in the President's house, will appeal to every heart. It reveals unmistakably the deep kindness of the President's character:

"At the reception Saturday afternoon at the President's house, many persons present noticed three little girls, poorly dressed, the children of some mechanic or laboring man, who had followed the visitors into the house to gratify their curiosity. They passed round from room to room, and were hastening through the reception-room with some trepidation, when the President called to them, 'Little girls! are you going to pass me without shaking hands?' Then he bent his tall, awkward form down, and shook each little girl warmly by the hand. Everybody in the apartment was spell-bound by the incident, so simple in itself, yet revealing so much of Mr. Lincoln's character."

"If," says Dr. Holmes, "you should give me a dish of sand and tell me there were particles of iron in it, I would look for them with my eyes, and search for them with my clumsy fingers, and be unable to detect them; but let me take a magnet and sweep through it, and how would it draw to itself the most invisible particles by the mere power of attraction! The unthankful heart, like my finger in the sand, discovers no mercuries; but let the thankful heart sweep through the day, and as the magnet finds the iron, so it will find in every hour some heavenly blessings; only the iron in God's sand is gold."

THE NEW NATIONAL CURRENCY.—

The First National Bank of this city, has received and put in circulation some of its \$5.00 and \$10.00 notes. They are very handsome, and will be hard to counterfeit. The following is a description of them:

"The engravings on the back of the smallest denomination (five dollars) is Vanderlyn's great work of the 'Landing of Columbus.' The left hand vignette on the face, illustrates the discovery of America by Columbus; and the symbolic design for the right hand end is Columbus introducing the New World to the Old—America being typified by a female figure, led by the hand of Columbus into the presence of Europe and Asia, who are reclining in the foreground, while Africa stands in the background, absorbed by the ceremony. The back of the ten dollar note contains a copy of Ford's painting in the Capitol of 'De Soto Discovering the Mississippi,' and the left hand vignette on the face illustrates a great event of the same epoch, viz., Franklin's discovering the identity of lightning and electricity, while the symbolic design at the right hand end is a spirited figure representing America with an eagle's flight, grasping the lightning. Between the two vignettes on the face of all the notes there are two legends, the upper one showing the national character of the note, and the lower one containing the name and obligation of the association issuing it."

PRESIDENT LINCOLN IN EUROPE.—The Paris correspondent of the New York Times writes:

"The popularity of Mr. Lincoln has been as much advanced abroad by his late acts as in the United States. His maintenance of the act of emancipation in his annual message has given immense satisfaction to all those not prejudiced by special reasons for the rebellion, and his sagacity, straightforwardness and honesty, in the midst of such confusion and excitement, called from M. Laboulaye, the other day, at the College de France, before an immense audience of the elite of the intellectual world, the exclamation that Mr. Lincoln was 'a greater man than Caesar!' So, too, I heard a leading French politician say, lately, 'You Americans don't appreciate Mr. Lincoln at his proper value. No monarch in Europe could carry on such a colossal war in front while harassed by so many factions and fault-finders behind. No, you don't give him his due.' From an European point of view the merit of Mr. Lincoln is, in effect, immense; but in a republic it is the people and not the President who carry on the war. The personal compliment paid to Mr. Lincoln in the above remark is, however, none the less valuable, and on every side I hear people begin to say that Mr. Lincoln will merit more than a biography, he will merit a history."

MILWAUKEE AND DUBUQUE RAILROAD VIA MONROE, WISCONSIN.—The people of Milwaukee, and the towns and country on the route of the projected road, are thoroughly awake to the importance of the subject. Dubuque must have another road, notwithstanding she is at present unable to build it, though by the aid of other interested capital it can and will be done. The Milwaukee Sentinel, of the 21st inst., has a lengthy article on the subject, giving good and substantial reasons for the immediate prosecution of the work. There is no use in mincing matters; the Illinois Central, without a double track and at least four times its present supply of rolling stock, cannot begin to move the immense bulk of freight eastward nor being produced from the fields of Northern and Middle Iowa, all of which is tributary to Dubuque, and will come and must find an outlet eastward. Let another road be constructed and monopolies in transportation will fall hereabouts, and business will be done at only remunerative rates, instead of those that are purely speculative.—*Dubuque Commercial Reporter.*

LEE'S LAST ORDER.—The following order was recently issued to the rebel army in Virginia by its commanding General. The necessity of such an appeal is significant:

HEADQUARTERS ARMY OF NORTHERN VIRGINIA, JANUARY 22.
GENERAL ORDERS NO. 7.—The commanding General considers it due to the army to state that the temporary reduction of rations has been caused by circumstances beyond the control of those concerned with its support. Its welfare and comfort are objects of his constant and earnest solicitude, and no effort has been spared to provide for its wants. It is hoped the exertions now being made will render the necessity but of short duration, but the history of our army has shown that the country can require no sacrifice too great for its patriotic devotion.
Soldiers, you tread with no unequal steps the road by which your fathers marched through sufferings, privation and blood, to independence. Continue to emulate, in the future, as you have in the past, their valor in arms, their patient endurance of hardships, their high resolve to be free, which no appeal could shake, no bribe seduce, no danger appal, and be assured that the just God, who crowned their efforts with success, will, in His own good time, send down His blessings upon you.
(Signed) R. E. LEE.

The following letter has been received by the Principal of a Public School in England, in reply to circular asking the opinion of the parents upon the practice of flogging:

"Dear Sir: Your flogging circular is duly received. I hope as to my son John you will flog him just so often as you like. I was a bad boy John. Although I've been in the habit of teaching him myself, it seems to me he will learn nothing—his spelling is speshally ottragsully deficient—Wallup him well, Sir, and you will receive my hearty thanks. Yours, Wm. Walker, P. S.—Wat accounts for John being such a bad scollar is that he's my sun by my wife's first husband."

—Man is like an onion. He exists in concentric layers. He is born a bulb, and grows by external accretions. The number and character of his involutions certify to his courtesy and culture. Those of the boor are few and coarse. Those of the gentleman are numerous and fine. But strip off the scales from all and you come to the same germ. The core of humanity is barbarism. Every man is a latent savage.

—Never do anything rash on an empty stomach. It almost always gets people into trouble, and often into jail. If there is one institution more than another to be worked on a vacuum, it is that charming, squirming arrangement just under the diaphragm. Try a few and see.

PLEASANT PARAGRAPHS.

—A dying negro was told by his master that he must forgive a certain darkey against whom he seemed to entertain very bitter feelings. "Yes, yes," he replied, "if I dies I forgive dat nigger; but if I gots well dat nigger must take care."

—A firm in Cincinnati has received an order from a large plantation in Louisiana for seven hundred pounds, forty-two wagons, a lot of harness, thirty carts, one thousand barrels of pork, three hundred tons of hay, besides a quantity of blacksmith's and carpenter's tools, etc.

—A New Orleans letter says that working men are prosperous, wages being very high. "There are no slaves, and every able-bodied servant expects twenty dollars per month." The "Yankees" have come in with the "currency," and they want "help." They have taken the stores, put up big red and gilt signs of "Dry Goods," "Yankee Notions," "Produce," &c., and gradually they are making a new city.

—What female recluse is that whose name read backward or forward is the same? Nun. What lady-like designation is that which is spelled backward and forward the same? Madam. What time is that which spelled backward and forward is the same? Noon. What portion of a young lady's dress is that which spelled backward and forward is the same? Bib.

—A cabin-boy on board a ship, the captain of which was a religious man, was called to be whipped for some misdemeanor. Little Jack went crying and trembling and said to the captain, "Oh, sir, you will wait until I say my prayers?" "Yes," replied the stern reply. "Well, then," replied Jack, looking up triumphantly, "I'll say them when I get ashore."

—A half-finished fellow in the Southern States tells of a baker (whose leaves had been growing "small by degrees, and beautifully less") who, when going his rounds to serve his customers, stopped at the door of one and knocked, when the lady within exclaimed—"Who's there?" and was answered—"The baker." "What do you want?" "To leave your bread." "Well, you needn't make such a fuss about it—put it through the keyhole."

The Richmond Examiner has an important leader. It says:

"The time has passed for offensive military operations on the part of the Southern armies. Beyond recovering lost positions of territory the true policy now is to risk nothing. Our means of subsistence have been too far exhausted to admit of any other than defensive tactics, that have become with us now a simple question of endurance with the South. The duration of the war is simply a question of a continued supply of food for the people and the army. The South can hold out indefinitely, if at the eleventh hour she does not go mad. The Richmond Congress can bring her to subjugation in six months more by conscripting her present producing classes, and thrusting them into an untrained and untrained army. The great want is food and clothing. The first duty of the government is to provide these supplies, and if they are not provided except by weakening the army, the alternative must be adopted, of resting with smaller armies, using the tactics of Fabius, and the strategy of defense."

Iowa is said to have furnished 2,000 men over and above her entire quota.

A TOUCHING LETTER.—The following letter received by Mrs. Glidden, of this city, acquainting her of the illness and death of her husband, Jacob N. Glidden, a member of the 11th regiment, is of so touching a character that we have requested the privilege of publishing it. It shows a richness and depth of feeling and tender care on the part of the writer, which does honor not only to herself, but dignifies and ennobles her sex to a point—"a little higher than the angels." And not only this, but it will comfort the hearts of those who have loved ones in the field, to know that there are ministering spirits hovering around the sick cot of those who have left a "wife and two little ones" behind. And how bright, too, shines out the brave, patient, patriotic spirit of this hero. No word of complaint; no murmur of regret at the immense sacrifice he has made for country. Cheerfully he gives up all, literally all, for the nation's preservation. Truly how priceless should this government be regarded, maintained at a cost so infinite:

"NEW ORLEANS, Dec. 29th, '63.
"MRS. GLIDDEN: In one of my hospital visits about two months ago, I met your husband. Since that time I have seen him very often, almost daily. He has been failing gradually ever since, and his chances for recovery are very poor. He requested me to write and say that he was going to start home in a few days, but I could not deceive you. The home he is near is one where friends never part, and where the war-drum is not heard. I wish I could write you words of cheer, but cannot. May God bless you.
"30th.—He is much the same, but still thinks of home, his wife and little girls. I will give him all the attention I can, still it cannot save him. I have never seen one so patient. Not a murmur escapes his lips. He just told me that he 'must lie there and suffer all that he is allotted him.' Said he, 'I gave myself to my country, and for her am willing to suffer, and, if necessary, to die.'
"31st.—Still weaker. He spoke feelingly of his family and said: 'If my wife and the two little girls were only here I could die happy.' He is now aware that he cannot last long. A gentleman from your State is here attending to all the men from there, and I presume will attend to his business. I have just left him, quite easy and calm. Will see him again as soon as possible.
"Jan. 2d.—I could not find him yesterday, but to-day I did find him free from pain and perfectly resigned. Says he is going fast. Spoke cheerfully of his prospects of soon meeting dear friends who have gone before. He wanted me to remain, but I saw that I could do him no good, and talking seemed to fatigue him so much, that I left him, promising to return early to-morrow. I scarcely think he will be there.
"Jan. 3d.—I arrived at hospital at 11 o'clock this forenoon, and your husband had just ceased to breathe. The nurses told me that he died very easy and seemed conscious until the last. He looks as calm as one in a quiet slumber. A serene smile is upon his countenance, and his looks denote that he has left this suffering body behind only to enjoy a happier state of being beyond this sphere. May He who has promised to be the widow's God, and a Father to the fatherless, give you strength to bear this sad bereavement. He is but another to swell the list of victims of this cruel rebellion, and his afflicted friends are still left to suffer on.
"I send you a lock of his hair, which is the only comfort in my power to offer. With sentiments of true friendship,
"I am your unknown friend,
"MRS. N. M. TAYLOR."

The effect of morocotic poisons seems to be destroyed by pouring cold water on the face and head. A girl, accidentally poisoned in England with laudanum, had all the usual remedies administered without effect; when cold water was applied, however, she breathed more easily and bled from the nose. The treatment with water being suspended she relapsed into coma; being resumed she again rallied, and in sixty hours was completely recovered.

A REBEL STEAMER CAPTURED!

Expedition up James River!

Col. Mulligan Repulses the Rebels at Morefield Junction!

LATE FOREIGN NEWS!

FROM THE SOUTH.

Fort Monroe, Feb. 2d.—The steamer Union has arrived—forty-eight hours from Port Royal, bound to New York. January 14th she captured the rebel steamer *Mayflower* in Sarasota Pass, Fla., loaded with cotton. January 31st, off Charleston, heard heavy firing. The Union put into Hampton Roads to forward dispatches. Gen. Butler has just received following official reports:

January 31st, an expedition went up James River and Pagan Creek to Smithfield to join an expedition up the Chockalo, under Gen. Graham, to destroy provisions and supplies, a signal station, and smuggling depot. The expedition landed at Smithfield, consisting of ninety men and one howitzer, under Capt. Lee, to march to Chockalo. When five miles beyond Smithfield they encountered a rebel force of 2,000 strong with two pieces of artillery, routing them out. Receiving false information of a heavy force between there and Chockalo, they returned to Smithfield and sent forward the transport *Smith Briggs*, which, owing to the fog, did not arrive till 12:30. On Monday evening, 500 strong, with four pieces of artillery they attacked Capt. Lee in Smithfield. They had held against several furious attacks and charges from the enemy, until the *Smith Briggs* arrived. The enemy were repulsed in each attack, with heavy loss. They sent three flags of truce, demanding surrender, all of which Capt. Lee refused. On the arrival of the *Smith Briggs* they retreated on board, when the enemy opened a heavy fire of artillery upon them. The chief engineer was wounded and the 2d engineer is missing. This prevented the boat from working off, and finally a ball struck her boiler and she was disabled. Capt. Lee and a portion of his men escaped by swimming. Others captured, among them Capt. Rowe, who was wounded. Our loss in killed, wounded and missing was 30. The enemy's loss in killed and wounded was 150, heavier owing to their superior numbers and making the attack. Soon after the capture of the *Smith Briggs* she was blown up.

FROM WESTERN VIRGINIA.

New York, Feb. 3d.—A special to the Herald, dated Headquarters, Western Virginia, Feb. 2d, 8 P. M., states that Col. Mulligan this morning drove the enemy from Burlington and Morefield Junction in Patterson Creek Valley. At noon, 500 of Ross' rebel cavalry attempted to burn the North Branch and Patterson Creek bridges and cut the telegraph. They were driven off without doing any serious damage. The fires were put out and the rebels pursued by Pennsylvania cavalry.

FROM EUROPE.

New York, Feb. 3d.—The steamship *America*, from Bremen via Southampton, Jan. 20th, has arrived.

Three hundred thousand pound sterling specie had been sent by the Bank of England to France. Demand for discounts in London are heavy. Consols 90 1/2 for money.

The French Admiral Hamlin is dead.

ITALY.—The *Diretto* had been seized for publishing Garibaldi's address announcing the formation of a committee to promote Italian union.

Berlin journals assert that Denmark already is willing to participate in the conference proposed by England, provided France agrees thereto.

FROM CHARLESTON.

New York, Feb. 2.—The *Post* says: We have trustworthy information that Gen. Gilmore will come north in about two weeks. He is now at Hilton Head, and everything in his department has settled down into the old routine. Several of the best regiments of Gilmore's force have been sent elsewhere, and others are preparing to follow.

FROM LOUISVILLE.

LOUISVILLE, Feb. 2.—The Court of Inquiry in the case of Generals Crittenden and McCook commenced its session here yesterday. Major Generals Hunter and Canby, and Brigadier General S. Wadsworth, compose the court. Colonel Schriver is Recorder.

General Burbridge is at the Louisville Hotel. Among the Galt House guests are Major Generals Hunter, Canby, Wadsworth, Stoneman, Schofield, Crittenden and McCook, Brigadier Generals Wadsworth, Allen, and Chaplain, and Rear Admiral Porter.

IMPENDING ATTACK ON MOBILE!

Increase of Duties on Whisky!

A SERIOUS REBEL REVOLT!!

GEN. GILMORE COMES NORTH

FROM NEW ORLEANS.

The Herald's New Orleans letter says troops are being hurried over lake Pontchartrain and landed at Madisonville. All agree that Mobile is to be attacked by land and water.

FROM CHARLESTON.

The World's Hilton Head letter says operations against Charleston have virtually ceased. Gen. Gilmore goes to Washington to represent affairs between himself and Dahlgren.

FROM WASHINGTON.

WASHINGTON, Feb. 2d.—Trade restrictions in Western Virginia are removed. The Senate Finance committee have reported the House Internal Revenue bill with amendments. They drop the tax on whisky in hand but increase the rates to 60 cents on all manufactured after the passage of the bill to May 1st.

WEDNESDAY, FEBRUARY 3, 1894.
DEATH.
[For the Janesville Gazette.]
Here is a willing witness in the wind
That troubles me in vain I smile, and sing,
For still above my pillow, gentle notes,
I hear the low, and meaning sounds,
And when with blanching cheek and lip I blush
The notes of joy and love, then I feel
As if my heart beat for my cheek—
As if a cold hand pressed on my heart,
And then I think of Death!

Why is it thus?
It is not fear, I do not seek to die,
For God is good, and he would take me home
To that bright world of joy, and peace, and love.
But life has grown so beautiful to me;
It shivers rich, perfume blossoms at my feet,
And garlands weave about my head,
And I could turn away from all of these,
And lay my hand on Death's cold hand,
And go down to the silent land
Without a pang of grief, or shrinking dread.

Al! close beside us, ever hovering near,
Orin death stands waiting for the hour to come
When he may bear our souls away to God.
And it is well that sometimes we should have
A warning in the morning wind that will
Shower us upon the quivering air,
That sometimes in our wildest, gayest hours,
His love should whisper across the soul,
That sometimes we should almost hear the dash
Of his wings upon the shores of Time,
Or dark river flowing in our midst;
Else in our blindness we should never pause
To think of the hereafter—or of Death.
The strange mysterious future that we dread,
Until we see with eye of faith the hand
Stretching out to lead us on the golden strand,
Beyond the river to that fair, bright land,
Wherein the city of our God we dwell
On our foundation, and where we may dwell
Forever in the light and joy of Heaven.

et's nose. You ought to be able to lay
the hole human families with yore bump
at once. You will never be a widdler
long; not enny.
Polygy.—You have got the natral wa.—
A splendid bump. It feels like a dimmo-
kratic bump, too. Monny a man has got
to be a konstible with haf yore bump.
Komativness.—Slightly, very much. You
might like a woman, but tuff match.
I shud like to bet on the woman. This
bump wants polittising.
Vitiss.—Bi thunder what a bump I shud
think you cud eat a hoss and oart and chase

BADGER!
1862: 1863: 1864:
GOOD! BETTER! BEST!
THE BADGER DRILL!
HERETOFORE KNOWN AS
THE JESSUP DRILL!
AS MADE BY
R. J. RICHARDSON,
is now vastly improved, and will hereafter be called
the **BADGER**. The Badger possesses all the good qual-
ities of the old drill, and many valuable improvements.
The feeding principle of the new drill is the same as
the old, but the working arrangement is quite different,
and very much improved.
The workmanship is also much better than the old
drill. We will not claim that the Badger is better
than other drills, but we claim that it is better
than any other drill, under any circumstances, and
that it is the only drill that is the best of its
kind.
To those who know the old drill it is only necessary
to say that the Badger is like it—only better.
To those who are not acquainted with the old drill, we
would say that the Badger is the most accurate in its
feeder than any other drill introduced.
That it is lighter draft and easier for the team than
any drill yet introduced into this market.
That it will distribute any kind of grain grown in
this region. That it will
Plant Corn in Rows or in Hills!
Any distance apart, from three to six feet.
That the Badger is warranted to perform. In a good
and workmanlike manner, all that is required of any
drill. It is on trial, it does not perform, it can be re-
turned to the manufacturer, and all damage will be
paid.
In consequence of the large advance in cost of all
kinds of material, the Badger must be sold at advance
price over last year.
Price of the Badger for 1894:

LOCAL MATTERS.

Good morning, neighbor Hoyt.
"Good morning, Mr. Ward, good morning. Are you just on the way from town?"
"Yes, I want in yesterday."
"What's the news, and what did you get for wheat?"
"Well, I heard something about running Ben Butler for the next President, but I was in a hurry, so hurried for Old Abe and left. I got \$1.15 for my wheat."
"That's pretty good. By the way, neighbor Hoyt, have you got any good seed wheat to sell me next spring?"
"Well, yes, I guess I can spare you some. How much do you want?"
"Well, I shall want to sow 80 acres; twice 80 to 100. I shall want 100 bushels."
"What! 100 bushels on 80 acres? You don't mean to say you sow two bushels to the acre, do you?"
"Oh! yes. I always sow two bushels of wheat to the acre."
"But do you think it necessary to sow so much to the acre?"
"Well, you see, there is a good deal that don't grow to amount to anything, because we can't cover it up deep enough to keep the rains from washing it out of the ground. I remember last spring when I sowed my ten acre lot, and dragged it both ways, and left it in good shape, all covered nicely. There came a smart shower on it three or four days after, and the next day I was going across it, and I declare there was sight of it on top of the ground, and of course we have to sow enough to allow for what we don't cover, and what the rain uncovers."
"Oh! yes, Mr. Ward, that's the way with broadcast sowing. I know. But why don't you get a drill, and then you would save all that waste? I have had one of Richardson's drills for two years, and I don't sow but one bushel and a half to the acre, and I think it is enough, and as good as two bushels broadcast."
"But how is that, neighbor Hoyt. I don't see how you can make that out."
"Well, you see the drill is made so you can gauge it just any depth you wish. Then, you know, the drill leaves the wheat in a little furrow, so that when it rains or the wind blows it covers the wheat deeper instead of uncovering it."
"Well, now I like that first rate. I've heard about these drills but never thought they were what they were cracked up to be. How is it about working them, some say it is very hard work for the team?"
"Well, you see there is a good deal of difference in drills. Mine is one of Richardson's 11 tooth, made two years ago, and it runs very light. I would as soon my colts would draw it as to draw a drag."
"Now I don't see how that is, for neighbor Bennett has a 9 tooth drill and he told me it was very hard work for his large team."
"Well, I guess his is one of the Ohio Drill. I am told that they do run hard."
"But what should make the difference, I wonder?"
"Oh! it is the way they are geared. If you should see the machine you would see at once."
"How does Richardson sell his drills this year?"
"Well, I paid eighty dollars for mine two years ago, but I guess they are higher now, for he has improved them very much this year."
"Well, I am just going to town, and I'll go and see Richardson; if I should get a drill it would save me 40 bushels of wheat, according to your figures, that would be forty dollars at least."
"That's so. Then there is your oats and barley business."
"Well, you may save me 120 bushels of wheat, and I will get one of Richardson's drills. I see he says we need not keep them if they don't work well. Good day."

DENTAL FACTORY!

DOCTOR BURRUS

Has taken a lot of rooms over McKoy's Store, where he will be permanently located and practice every department of

DENTISTRY!

In all its branches. He will not only make teeth to order for his patients, but intends to keep on hand and set a full assortment of teeth for Dentists. He makes teeth so cheap that none need go without them. Every variety of style, from five to sixty dollars per set, and lasting nature, with such perfect finish that they cannot be distinguished from the natural teeth, with one exception, that is, they never ache! He puts no nerves in them.

Retracted Without Pain.

Dr. Burrus has also just procured a quantity of pure, Hydrate of Lime, which he will use in all his dental and medical operations, as well as by the latest of the medical profession, to be the best and safest of all the anesthetic agents for the purpose of extracting teeth. He has a new mode of administering his agent, new apparatus for the express purpose. It is preferable to less dangerous, though analogous to Nitrous Oxide Gas, (Laughing Gas).

This gas has been found by the public over half a century, and proved to be dangerous and uncertain in its use.

Dr. Burrus uses this agent for all who desire it. A small piece of cotton wet with this agent is placed around the neck of the tooth, and the patient is unconscious in the pain. It is not dangerous under any circumstances.

THE BEST IS ALWAYS THE CHEAPEST!
WARRANTED!
WITH
UNIVERSAL
COG WHEELS!
SELF-ADJUSTING & ADJUSTABLE.
It is the best and only reliable wringer before the people. It is the most durable machine made, and contains more strength of frame, capacity for pressure and power of action than any of the cheap, NO COG WHEELS in the market.
Without cog wheels the whole strain of forcing the cloth through the machine is put upon the lower roll, and the cloth is made to act in the place of cog wheels, to divide the upper roll, causing three times as much strain upon the lower roll as when cog wheels are used. Experience shows that Cloth Wringers without cog wheels cannot be depended upon. We have seven sizes, from \$5.00 to \$20.00. The ordinary family size are No. 1, \$10, and No. 2, \$15. They have COG WHEELS and are warranted in every particular. It was pronounced superior to all others at the World's Fair at London, 1862. It took the Great Prize at the Great Fair of the American Institute, New York City, 1863, where the judges were practical mechanics, and appreciated COG WHEELS.
It took the Great Prize at the New York State Fair, 1863 and 1862 Vermont State Fair, 1863 Pennsylvania State Fair, 1863 Iowa State Fair, 1863 Illinois State Fair, 1863 Michigan State Fair, 1863 And at County Fairs without number.
It will wring anything from a lace collar to a bed quilt. It will wring clothes out of boiling hot or freezing cold water.
If You Don't Believe It, Try It!
We ask none to buy without a thorough test, for which abundant opportunity will be given to all. Furnished to families on trial free of expense.
Sold in Rock County by James H. Jones, Centre; John & Ben. Johnson, Henry Cheney, Johnston; H. S. Gould, Milton, and J. M. Sweet, Union.

100 PERCENT

FOR A MEDICINE THAT WILL CURE

COUGHS, INFLUENZA,
TICKLING IN THE THROAT,
WHEEZING COUGH,
Or RHEUMATISM CONSUMPTIVE COUGH.

AS QUICK AS

COE'S

COUGH BALSAM

Over Five Thousand Bottles have been sold in its na-
tive town, and not a single instance of its failure is
known. We have, in our possession, any quantity of
certificates, some of them from eminent Physicians,
who have used it in their practice, and given it the
pre-eminence over any other compound.

And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident that one trial will secure for it a home in every household.

DO NOT WASTE AWAY WITH COUGHING

when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cure it has made.

ESPECIALLY TO THE SICK
DR. V. CLARENCE PRICE,
ANALYTICAL PHYSICIAN
 LATE OF BUFFALO, N. Y.
Notice for January, 1864.
 It will be remembered that Dr. Price has visited
 Janesville for three years, restored to health many su-
 ffering from affections of the Lungs, Throat, Liver,
 Heart, Kidneys, Rheumatism, Catarrhs of the Bladder,
 Asthma, Croup, Dropsies, Female Complaints, and
 other diseases called chronic, most having disappeared

his or destructive agent, nor exhaust the energies in
failure the constitution, nor make sick to make well
nor down to build up. We write honorable in-
vestigation, feeling that our cause is just. Those sick
discouraged call upon us—alms-givers gratuitous. Our Phil-
anthropy of practice is founded on the laws of the Nat-
ure. Our theory of disease, the theory of Experience and
Evidence—our Materia Medica the boundaries forbid!
DR. PRICE will be for consultation upon diseases
generally at Janesville,
Hyatt House, Saturday and Sunday,
the 8th and 10th of January, 1861; Whitewater, Mo-
tor House, the 6th of January. Dwt
